

Assignment Sheet

Task 1 – Exponentiation

(10 Points)

Write a program that takes values n and x and calculates n^x if no overflow happened. Make sure to document your code by writing comments (`'#'`).

Input:

In t0: n (unsigned integer)

In t1: x (unsigned integer, $x > 0$)

Output:

In t0: n^x In t1: -1 if there was an overflow, 0 otherwise
